### COWLES DIVORCE TRIAL SET FOR AUGUST 30

Will Be Held in This City Before  
Judge Pike--No Attempt Made  
By Father to Secure Custody of Children.

The divorce proceedings of Mrs. Florence J. Cowles against her husband, Dr. Edwin S. Cowles of this city will be heard in this city before Judge Robert G. Pike of the superior court, commencing Monday, August 30th. This date was agreed upon by counsel at an informal hearing held in Dover today before Judge John Kivel. Mrs. Cowles was represented by ex-County Solicitor Ernest J. Gupitt and John L. Mitchell of the firm of Page, Bartlett and Mitchell. Hon. John Seaborn of Dover and Attorney Fred Aldrich of Boston appeared for Dr. Cowles.

The court, after assigning the date of trial, further ordered that the pleadings of both contestants be filed before Thursday, July 22.

At the time of divorce proceedings being instituted in December last by Mrs. Cowles an order was issued by Judge Young restraining Dr. Cowles from interfering with the personal liberty of his wife, and also giving her the custody of their two small children pending the result of the divorce proceedings.

It was announced several days ago that at today's hearing the counsel for Dr. Cowles would ask to have Judge Young's order so modified that the children could be with their father a portion of the time.

On Friday evening counsel for Mrs.

Cowles were notified that no attempt would be made to change Judge Young's order in regard to the custody of the children and they will remain in the care of their mother until the decision of the court is reached in the divorce proceedings.

### ITALIAN ARMY CAPTURES TWO MORE PASSES

(Special to The Herald)  
Rome, July 17.—Another success for the Italian army which invaded Austria west of Lake Garda was officially reported. The Italians have occupied two more important mountain passes in the western part of Trentino. In the Carnic Alps the Italians and Austrians are engaged in fierce fighting in fog and dampness upon the lofty crags.

The biggest bargain ever offered for a time at the Portsmouth Theatre. Same big crowds; same little prices. The big theatre crowded nightly.

### By Two German Torpedoes and Not By Explosion of Ammunition is the Verdict in Lusitania Investigation

(Special to The Herald)  
London, July 17.—That the liner Lusitania was destroyed with a loss of more than 1000 lives by two torpedoes fired by a German submarine without warning and not by an explosion of ammunition in her cargo, is the chief feature of the verdict rendered today by Lord Mersey, who presided at the investigation into the sinking of the Cunarder on May 7.

The verdict criticises the failure of Captain William T. Turner to follow the directions given him by the British Admiralty, but sums up the judgment against the German Admiralty in these words: "The whole blame for the catastrophe rests wholly upon those who plotted and committed the crime."

### ORAL UNDERSTANDING MAY BE REACHED

(Special to The Herald)  
Washington, July 17.—After the encouraging conferences between Secretary of State Lansing and Ambassador von Bernstorff, Washington today awaited the return of President Wilson who holds the key to the German situation.

Secretary Lansing's admissions that an oral understanding between the two nations is possible, is the most reassuring sign since the receipt of the latest German note. It possibly forecasts the apparent fruitless diplomatic correspondence between Germany and

the United States on the question of the former's submarine warfare, and would mean that Germany by her acts is to recognize the principle of the seas announced by this government.

### FLOOD DOES GREAT DAMAGE AT LIMA

(Special to The Herald)  
Lima, Peru, July 17.—Three persons are dead in Lima, 1500 are homeless and more than \$500,000 property damage has been wrought by a flood in the Ottawa river. The entire available force of city employees is guarding the bridges across the river in an effort to save them. Factories along the river bank are under water and much damage done to goods.

#### TEMPORARY APPOINTMENT

Philip J. Griffin has received a temporary appointment as deputy in the Internal Revenue office during the absence of Frank B. Flanders, a regular deputy who was injured a few days ago in an auto accident.

### RUSSIAN TROOPS ARE RETREATING

(Special to The Herald)  
Petrograd, July 17.—Russian troops are retreating in northern Poland between the Oryz and Pina rivers. They are falling back to the Narow river before the renewed assault of the German army which is trying to batter its way to Warsaw from the north. The

Germans have reached the Cieszanow front, only 14 miles from Pultusk, Russia's great fortress on the Narow, and only 41 miles from Warsaw. That the German successes in northern Poland are continuing is admitted at the war office. The Kaiser's troops are also making a successful advance in the Baltic region.

### PRESIDENT WILL LEAVE SUNDAY

(Special to The Herald)  
Washington, D. C., July 17.—President Wilson expects to leave Cornish on Sunday afternoon and will arrive in Washington Monday morning, according to a White House announcement today. Private Secretary Tamm will go to his home at Jersey City tonight and will return to Washington at midnight on Sunday.

### ALL LINES RUNNING WITH FULL CREWS

(Special to The Herald)  
Providence, R. I., July 17.—All lines of the Rhode Island Company are running with full crews today pending a final decision by three arbitrators including Mayor Joseph H. Galloo. The decision will be given after next Tuesday to date from July 15 principally on the men's claim of a twenty per cent increase.

Don't forget Pythian Sisters Lawn Party. Sinclair Inn Grounds, Wednesday, July 21.

### GERMANS INSTIGATORS OF STRIKE?

(Special to The Herald)  
London, July 17.—The London Financial News today printed a sensational story, in which it is alleged that the South Wales coal mine strike was instigated by agents of Germany who sent \$300,000 to influence the miners. The London Express accepts this story and believes that the men who caused the strike were German-Americans.

### SPECIAL SESSION IS CALLED

(Special to The Herald)  
London, July 17.—Premier Asquith has called a special session of Parliament for Monday to deal with the Welsh coal strike situation.

#### SPECIAL SERVICES

Mrs. Boston T. W. Malaga of the Boston headquarters will have charges of the services at the local Salvation Army Camp on State street tomorrow at 3.15 and 7.15 p. m. Good music and singing. All are welcome.

### CUNARD LINER HAS NARROW ESCAPE

Submarine Fires a Torpedo But  
Misses Big Passenger Craft By  
Only Twenty Feet.

(Special to The Herald)  
New York, July 17.—The Cunard liner Orduna, one of the largest passenger ships left in the Trans-Atlantic service, arrived here today, having had a narrow escape from destruction by a German submarine.

The submarine fired a torpedo at the Orduna just outside of Liverpool harbor but missed it by twenty feet. The Orduna left Liverpool on July 8. Early the next morning the lookout

noticed the periscope of a submarine near at hand. The vessel was sent forward at full speed with the submarine, which had now risen to the surface, in pursuit.

The Orduna adopted a zigzag course and as she swerved a torpedo was fired at her. Owing to the movement of the ship, however, the missile missed and before another could be fired the liner was a great distance away and help was at hand.

### RUSSIAN WARSHIPS ARE BUSY

(Special to The Herald)  
Petrograd, July 17.—Russian war-

ships have bombarded the reconstructed Turkish batteries at Samsun, Asia Minor, destroyed two steamers and several sailing vessels, the Admiralty announced today. Russian submarines have sunk a steamer, and several sailing vessels at the Bosphorus.

#### NOT KNOWN TO POLICE.

A report of another house robbery on Court street was in circulation today but the police have not been notified of any such occurrence.

# KNIGHTS OF COLUMBUS DEFEATED MARINES

## Horan Pitched Good Ball and Received fine Support Score 4 to 0

By allowing but two hits and giving no bases on balls, Horan held the Naval Prison Marines harmless in last evening's K. of C. Marine Sunset League game. The Marines were more or less at a disadvantage owing to the loss of Reynolds who has been pitching fine ball for them. Reynolds is in the hospital with a broken ankle.

Three hits and some bad errors by the Marine players allowed the K. of C. team to get four runs across the pan, pulling them up a little in percentage in the standing.

The first run came in the second inning and was made pretty cheaply. The batter reached first on a fielder's choice, was advanced by a base on balls, and scored on two errors. The second run came on an error and a hit. Two hits and an error allowed the last two runs in the fifth inning.

The feature play of the game was made by Connie Reardon in the first inning. Custer connected with one that he liked and the ball was headed for a home run. Reardon made a hard run for it and made the catch with one hand; after a jump of about three feet. Eberhard at third made three fine stops and throws.

In the first inning Lennon was called out on strikes. He disputed with Mr. Bunker, the umpire, about the third strike, and, after some remarks that weren't to the official's liking, Lennon was ordered out of the game. Strand took his position at center and Tharau went into the game in right, covering Strand's position.

**The Game**  
1st inning—Wilkinson was out at first, Single to Caster. J. Timmons was thrown out at first, McDonald to Caster. O'Brien was safe on an error by Smigle. Reardon was tossed out at first, Single to Caster. No runs.

Caster fled out to Reardon in right. Deleiden was out at first, P. Timmons to P. Bailey. Lennon fanned. No runs.

2d inning—J. Bailey was out at first, Eberhard to Caster. P. Bailey walked. T. Timmons was safe at first, forcing Bailey at second, Eberhard to McDonald. P. Timmons drew a pass. On the fourth ball, T. Timmons started for second and Hanson threw to McDonald and he muffed the throw, allowing it to go to the outfield. T. Timmons made third and started home. The throw to the plate was missed by Hanson, and Timmons scored from third. Horan fanned. One run.

Hanon fled out to Wilkinson. Eberhard was out on a foul fly to Bailey. Strand singled over short, McDonald fanned. No runs.

3d inning—Wilkinson was out at first on a grounder to third, Eberhard to Caster. J. Timmons hit in front of the plate and was thrown out at first by Hanson, who made one of the finest throws seen up the field this season. O'Brien connected. Reardon fanned. No runs.

4th inning—J. Bailey was safe at first on an error by Rohm. P. Bailey sacrificed him to second, and was out at first, Smigle to Caster. T. Timmons fanned. J. Bailey stole third. P. Timmons singled to right, scoring Bailey, and took second on a passed ball. Horan fled out to Rohm at short. One run.

5th inning—Wilkinson was out on a fly to Wilkinson. Eberhard was safe at first on Wilkinson's error. He stole second. Strand was out at first, J. Timmons to P. Bailey. No runs.

6th inning—Wilkinson was passed. J. Timmons singled through the infield to right, advancing Wilkinson to third. J. Timmons stole. O'Brien made a Texas leaguer, scoring Wilkinson and advancing Timmons to third. Reardon fled out to Tharau in

right, who threw to Hanson, getting Timmons at the plate. J. Bailey was safe at first when McDonald threw wild, drawing the baseman off the bag, O'Brien scoring. P. Bailey fanned. Two runs.

Horan fanned McDonald and Smigle. Rohm singled to center. Caster was out on a grounder to P. Bailey at first. No runs.

The Misses Anna and Mary Cash who have been passing two weeks at Ash Knoll Farm will return to their home in Waltham, Mass., this evening. Charles Favour and Henry Haisell are passing the week-end in Limerick, Me.

### HOME CAMP MEETING

In spite of the rain last night the attendance at the big tent on Main street, South Eliot, was double that of the night before. The congregation listened very attentively while the evangelist, Miss Curry, preached from Romans 6:12 and Romans 8:6. The absolute quiet as she expounded the scriptures and showed the two works of Divine grace, justification and sanctification, showed the deep interest of the congregation. The indications are for a good meeting, a good attendance and good results. There will be three services on Sunday, 10:30 a. m., and 3 and 7 p. m.

On Sunday evening Miss Curry will preach her sermon on "Repentance."

This sermon contains a clear scriptural exposition of Bible repentance, and has attracted attention and resulted in many conversions in the large tent. Come and hear it. Remember the place—the big tent on Main street, South Eliot. Remember the time—7 o'clock p. m. Remember the text—"Repent Ye." Matt. 3:2. Remember the evangelist—Rev. Martha S. Curry. Come! Come! Come!

## RELEASED ON \$4,000 BAIL

### Fred Delaware Is Charged With Setting Ossipee Fire.

Dover, July 16.—A hearing on a bail petition of William S. Mathews of Somersworth, counsel for Fred Delaware of Ossipee, charged with arson in connection with the recent conflagration which caused a \$50,000 loss at Ossipee, before Chief Justice Pike in the superior court today, resulted in bail at \$4,000 being named.

Delaware, formerly a blacksmith, was arrested recently charged with setting his buildings afire and thus causing the disastrous blaze that swept through the major portion of the county seat.

### YORK BEACH DEFEATED SANFORD TEAM

The Sanford Independents were defeated yesterday afternoon by York Beach, 9 to 2, at the York Beach baseball park.

Bob Weare, formerly of Dartmouth, pitched the first seven innings for the home team and was very effective. The last two innings Russell Weare worked in the box. Sanford used three pitchers in their effort to stop the run-getting, but they were all hit hard, the York Beach boys getting runs in each inning with the exception of the fifth and eighth.

For the home team A. McKenna of Waltham and Simpson of Colby played star games. The game was remarkably clean, only one error being made by each team.

Long hours and small pay are reasons which may cause Ellsworth to, the veteran life guard of Salisbury Beach to relinquish his position at the end of the coming week. It has been rumored that the York coach baseball team had disbanded, but the fact that they played yesterday, and that they play again today, disproves the report. The report read about this section claimed that a manager felt that he had lost too easily to continue with the venture. Manager Ashworth stated that he did no intention of closing out his team and that the schedule would be completed. He said that he intended continue playing his games at York coach although he had been approached by hotel men to take his team to Breton Woods. His reason for not accepting was that not enough money was offered. That is probably the statement that started the rumor.

## A Weak Argument.

There are arguments for and against woman's suffrage and both are being presented fluently and ably. Just at present those in favor of the enfranchisement of women are most profuse and vociferous, which is doubtless due, in part at least, to the fact that the movement in favor of the vote for women has gained a momentum that is nothing short of formidable.

But one of the weakest arguments in favor of suffrage for women is that it is unjust to tax the property of women because they do not have the ballot. Those who advance this argument fall back on the cry of the American colonists against "taxation without representation," but the cases are by no means parallel. The colonists used the term in a national sense, while the suffragists and their spokesmen make a personal matter of it and claim that the state has no moral right to levy taxes on the property of a woman because she does not have the ballot and direct participation in the making of laws.

The unsoundness of this view is easily illustrated. There are thousands of property owners in the country, men as well as women, and minors as well as both, who are obliged to meet the demands of the tax gatherer without enjoying the privileges of the ballot. The voter can vote only where he has a legal residence. He may own property in every state in the Union and it is taxed according to the laws of the different states, and yet the owner can vote only where he lives. The minor has nothing to say about the laws, and yet his property is taxed the same as if he were a voter. Therefore the cry that women are suffering from "taxation without representation" is far fetched and of no substantial value in the campaign for woman's suffrage.

All property is equally protected by the laws, and all property should and must be taxed whether its owners have the ballot or not. There are millions of dollars worth of property in the country located where its owners cannot vote, and these owners have as good a right to oppose "taxation without representation" as the suffragists have.

It is a foolish cry and will prove of small advantage to those who are voicing it. Women who have taxable property have something to be thankful for and should cheerfully pay their taxes while the great question in which so many of them are interested is in process of solution. And, to their credit be it said, most of them do.

Boston recently shut down on the sale of magazines because they had pictures of the American flag on their covers; this being by a fine spun technicality contrary to law, and now other cities are proposing to censor magazines with reference to their contents, complaints having come to the front of late that certain of their number have contained highly objectionable matter. The country has come to a pretty pass if it is necessary to censor the magazines as a protection against indecent literature, and it may be well not to become excited until more is known about the matter.

Importance is attached to the fact that the Germans have captured a cemetery. But if the ordinary forms of burial are observed there will be cemeteries enough for all by the time the great unpleasantness is over with.

If the country must have a bureau of inventions it is eminently proper that Thomas A. Edison should be at its head. But are not "bureaus" multiplying rather rapidly in this country at the present time?

Wisconsin is employing an aviator in the forest fire service. There is nothing like being up to date in this progressive age, but it takes eternal vigilance and liberal appropriations to do it.

The shortest soldier in the French army is said to stand only three feet and six inches high and to be an excellent fighter. He should have little use for the trenches.

The permissible size of parcel post packages has been enlarged again. Will the time come when baled hay can be sent through the mails?

A chief of police has been arrested in Kansas for selling rum. It must be that prohibition in that state is not doing its perfect work.

There is no lack of employment in Europe, such as it is. The number of men in arms is said to exceed 21,000,000.

With the clambake season so closely following that of the strawberry shortcake, who will say that nature is unkind?

## CURRENT OPINION

Government and Destinies of a Nation Are Safest in the Hands of Its Workers.

The private industries of a country are the greatest stabilizers of peace. The great bandit nations of history have never been industrial nations. The robber has never been a worker. The government and destinies of a nation are safest in the hands of its workers.

When a nonindustrial people become conquerors they become destroyers. On the contrary, when an industrial people become conquerors they become upbuilders and civilizers.

Nothing could be more suicidal than for this country to nationalize the manufacture of armaments and munitions of war, for if this were done the supreme means, the indispensable means of defending the nation in time of war, would be rendered unavailable.

If it be the hope of the pacifists to limit the production of armaments by nationalizing the manufacture of them they would exactly defeat their purpose by such nationalization, for the government would then be obliged either to discharge its skilled labor and dismantle its plants or to go into and continue the manufacture of war munitions on a most stupendous scale, for the government plants could not be employed in times of peace for the manufacture of other materials, as are private plants.—By Hudson Maxim, Noted Inventor.

## NOMINATE EX-GOVERNOR FELKER FOR POLICE JUDGE

Former Governor Is Honored by Governor Spaulding—Council Has a Busy Session.

Concord, N. H., July 16.—At a meeting of the governor and council this morning a pardon was granted to Louis Monchamp from the state prison. Monchamp who had been reading dime novels and other trash literature, it is said, went into a bank at Milton and attempted to hold up the cashier with a gun in approved western style. The effort only resulted in capture, and on trial he was sentenced to a term of ten years of which he has served two years and three months. Since his incarceration in the institution he has been a model prisoner.

Frank M. Beckford of Laconia appeared for Monchamp and the county solicitor interposed no objection to the granting of this pardon.

At the afternoon session several appointments were made, including that of Hon. Samuel J. Felker, the former Democratic Governor, to be Justice of the Municipal Court, and of William H. Caldwell of Peterboro, to be a trustee of the Agricultural College, the latter being a re-appointment.

Ex-Governor Felker was named to

succeed William T. Cannon, who resigned the position on being nominated and confirmed as a member of the Public Commission.

Other appointments were: Thomas J. Winn, trial justice of the town of Harrisville; F. J. Welch of Daymond, Joseph Cross of Hillsboro; Christopher C. Caffrey of Claremont; Henry W. Osmond of Pittsfield; Harry A. Division of Washington; Lafayette A. Coville of Pittsfield; Samuel J. Marshall of Dover; George P. Dudley of Tiltonboro; George Jacobs and A. R. Lawson of Concord, fish and game deputies.

State scholarships at Dartmouth College were assigned as follows: Daniel Stark Dismore, Laconia; Altheard Edward Seward, Exeter; Arthur George Eastman, South Lyndenboro; Ralph Nelson Barrett, Walpole; Jessie Cartleton Wheeler, Ashland; Charles Wesley Middle, Campton; Herbert Ashley, Cheever; John Milne Murray and Chandler Tubbs White, Concord; Willoughby Amos Colby, Dover. No applications were received from Cook, Carroll, Strafford and Sullivan counties.

### TALKS ON THRIFT

No. 28—National Economy

"Perhaps there never was a time in the history of the United States, when the utmost possible stimulation of the saving habit meant so much to individual and national prosperity as it does now."—Blair H. Youngman, Editor of The Bankers Magazine.

If our people all work harder and save more money the United States could soon become the world's banker. That is the opinion of the Bankers Magazine and other authorities on finance.

Even if the European war speedily closes it will leave in its train a vast burden of debt to be provided for so that London, Paris and Berlin will have on their hands all they can handle for a good while to come. The United States would be in a position to take its place as international purveyor of capital.

"It must not be forgotten that we shall require a large amount of money to finance our own enterprises, which hitherto have been accustomed to go abroad for loans. To meet this demand to take back our securities from Europe and to provide for the international financing already coming to us as a result of the war, and which is bound to come in an ever-increasing volume, we must bring about a prompt and material addition to the saving capacity of our population."

The idea that prevailed in Europe previous to this disastrous war was to use everything that was available and to throw away nothing that could be used to great or small advantage. On account of the scarcity of land in

the producing sections, intensive farming had been brought down to an exact science, with the result that in these times of stress there can be enough produced upon a limited acreage to keep the people from starvation. If this habit of saving were practised more in this country our people would be in a far better condition to take care of themselves should some dangerous emergency arise in the future.

We repeat, there never was a time when so much of individual benefit, of national welfare and of public profit could be derived from the general adoption of the saving habit by the people of the United States.

do it now.

### SOME PIG CHASE

The people who took part in the sports at Rockingham Trotting Park on July 5 did not get a chance to chase the greased pig, but a woman at New Castle did, with no grease on his hide. This porker weighing 150 pounds and as wild as a hawk, is owned by a resident of the seaside town, who for some reason or other did not have him in the contests at the park. One day during the past week, his pigskin broke loose from the pen and the pig chase, mostly by women took place at New Castle. There was fun galore. Mrs. \_\_\_\_\_ with a rope was the winner but his riglets, certainly started something before she got the slipknot on his hind leg.

## NO PROSPECTS OF SETTLEMENT OF COAL STRIKE

(Special to The Herald)

London, July 17.—There is no indication of a settlement of the strike, said a leader of the miners today. "Unless the government yields by night many of the ammunition plants must close."

The strike that has made 200,000 miners idle in the South Wales coal fields and threatens to cripple the manufacture of ammunition and the movements of the British fleet, took on a more serious aspect today. While the government was trying to induce the strikers to return to work, the miners' association demanded that the cabinet withdraw the proclamation applying the provisions of the munitions act to the situation. The ultimatum of the association was served upon President Runciman of the Board of Trade. He at once rejected the demand and served notice that the cabinet could make no more concessions than had been offered in previous sessions with the workers.

## DID GERMANS START REMINGTON STRIKE?

Washington, July 16.—Though he would not positively confirm or deny the story that German agents paid \$2000 to get the Remington Arms Works strike started, Secretary Morrison of the American Federation of Labor suggested today that if British Ambassador Spring-Rice made such a charge to the state department, he must have known what he was talking about.

Neither the state department nor the British embassy would discuss the matter. That the complaint had been made was generally believed, however. It was thought the department would investigate, as such a payment by German Ambassador Bernstorff, to whom Spring-Rice was reported to have attributed it, would have been a serious breach of neutrality.

The German embassy unqualifiedly denied the story.

The labor department said it was not true that Congressman Kitchin and ex-Congressman Kelly, who were said to be on the scene of the Bridgeport strike, in an effort to end it, were acting officially for the government. It was stated, however, that if they found the government's good offices would be acceptable they probably will ask the department's assistance. It will not act until requested.

### ERADICATION OF WEEDS FROM THE LAWN

Washington, July 16.—While weed enemies of the lawn are troublesome throughout the growing season they are most particularly so from the latter part of June until frost. During this period crab-grass is by far the worst weed present, says the U. S. Department of Agriculture's lawn specialists. There is no really satisfactory method of checking its growth, and the only treatment to be recommended is to cut or pull the plants before they have formed large mats. This is a very tedious and expensive practice, but where a good lawn is involved the results justify the expense. Rational fertilizing and careful wa-

## PRESIDENT HAS FULLY DECIDED GERMAN POLICY

Wilson Will Put Plan Before His Cabinet Next Tuesday—Prepares to Leave Cornish.

Cornish, July 16.—President Wilson today practically put in shape the views of the German situation which he will communicate to Secretary Lansing and other members of his cabinet on his return to Washington next week. He has now completed his preliminary study of the subject and is ready to bring his stay here to a close.

The President was in communication again today with Secretary Lansing and has obtained in a general way the ideas of the Secretary of State on the position to be assumed by the United States.

It was said tonight that the President had not yet received a report from Secretary Lansing on the in-

terview the latter had today with Count Von Bernstorff, the German ambassador, although such a report may come here before Mr. Wilson leaves next week for Washington.

The protest from Austria-Hungary against the shipment of large quantities of munitions of war to the Allies, the situation growing out of the interference by Great Britain with commerce between the United States and neutral nations in Europe, came in for a share of the President's attention today.

The President worked for several hours today in his study on official business and spent the remainder of the time resting at the Flakeland House with members of his family.

## MAYOR GAINER BRINGS STRIKE TO SETTLEMENT

Expected That the 2400 Rhode Island Carmen May Return to Work Today—Trouble Seems Ended.

Providence, July 16.—Through a proposition that Mayor Joseph H. Gainer act as arbitrator, the street car strike which has paralyzed the Rhode Island company's system for the past two days, was nearing an end today. The proposition which came from the union officials is that the union select one arbitrator; the company one and the mayor act as the third.

"The union thus puts the whole matter up to the mayor, who after considering the matter from every angle decided to act. A meeting of the Rhode Island company directors, called at once to consider the proposition, also accepted the compromise and it is expected that the 2,400 men will go back to work tomorrow morning.

The letter to the mayor from the union follows:

"We are again willing to do more for the public than the company," says the letter to the mayor, "for we realize that on Saturday and Sunday many thousands of people will be put to inconvenience and hardships if the cars are not run, and we are very anxious to prevent this.

"We offer the company, through you, to nominate one man from our list of three; the company to nominate one man from its list of three to act as one of the arbitrators, and we offer to accept you, whose services are already accepted by the company as mediator, to be the third arbitrator and chairman of the board.

"If the Rhode Island company after this offer can find any earthly excuse for the continuance of this strike, you, as mayor of this city, and the public as well, will understand that the company does not desire any fair arbitration, but only its own brand."

A copy of the letter was sent to President Potter of the Rhode Island company and a meeting of the board of directors was called at once to act upon the proposition.

Union officials say tonight that the

acceptance of the union's proposition by the mayor and by the company does not settle the strike but that the company must sign articles of arbitration. Accordingly, there is a meeting tonight in the office of President Potter to consider this matter. If these articles are signed the men will be ordered back to work—otherwise not.

President Potter's communication to the mayor accepting the union proposition and specifying the matters to be arbitrated, is as follows:

"I am in receipt of a copy of a letter of even date herewith from the offices of Providence Division Number 618 of the Amalgamated Association of Street and Electric Railway Employees of America. I am instructed by the board of directors of the Rhode Island company to notify you that we accept the proposal made in that letter that you shall be the third member of a board of arbitration to arbitrate the remaining matters in difference between the company and the union, namely:

"1.—To determine what rate of wages that shall be paid by the company to all members of the association.

"2.—To determine the number of hours, if any, to be guaranteed extra men for a minimum day's work, all other points at issue having been settled between the parties.

"The board of arbitration is to consist of three men whom the Rhode Island company is to nominate one from the list of three already submitted by the company to the union; the union to nominate one from the list of three submitted by the union to the company, and you are to be the third arbitrator and chairman of the board. The above questions are to be submitted to this board in accordance with the provisions of the agreement of arbitration already reached between the parties.

"I am sending to the committee of the association a copy of this letter. A. E. POTTER, President."

## COMMISSION WILL CONDUCT OPEN HEARINGS

Excise Board Goes Back to Old System On Liquor Cases.

The excise commission at the hearing Friday on the complaint against Charles T. McNally, of Berlin, returned to the old system of public hearings in effect under the Little-Keeyes-Kivett commission. This was appreciated by a number of Berlin residents who came down for the hearing held in Room 5, at the State House.

Attorney General James P. Tuttle also appeared to conduct the state's case, which was another departure, as the complaints have been handled during recent months by a subordinate of the attorney general's department. Another interesting incident of the hearing was the indication of the commission that they are not disposed to daily over cases longer than necessary.

Both Attorney General Tuttle and

Merrill Shurtleff, counsel for Mr. McNally, agreed that a continuance of four weeks would be satisfactory after the presentation of the state's case had been made. Chairman Keyes and Commissioner Jackson and Ordway put their heads together after the request was made and after a brief whispered conference Chairman Keyes announced that the commission would hear the defense two weeks from today. This will interfere with General Tuttle's vacation plans.

Five witnesses were produced by the state, testifying that they were not registered guests of the New River Hotel on either June 13 or June 20, which fell on Sunday. They declared they did obtain liquid refreshments along with sandwiches which were designed for consumption. These who testified were William Oscar Harris, Burton O. Sanbury, Louis Bonaventura, Eugene Quintal and Thomas Close. Close was questioned by General Tuttle concerning some flasks he had sold to the hotel.

Mr. Shurtleff did not cross-examine the witnesses at great length and the attorney general did not seek to bring out more than that they had been served with beer or liquor on the days specified. Quintal said there were between 20 and 30 other persons in the room drinking when he was served.

It is not merely for those who expect to be presented to the Bishop for the Laying-On of Hands.

The attention of the sick and other "shut-ins" is called to the Consecration-Bell. The ancient custom of tolling the church bell three times at

each consecration in the service of the Holy Communion has been revived at St. John's and the sick are asked to listen for it that they may know when the most solemn part of the service is taking place and so be able to unite their prayers with those of their brethren actually present in the church. If they will follow the service at home in their prayer books they will be able to tell just about the time to listen for the bell.

### CADILLAC EIGHT CHOSEN AS EXPOSITION CAR

San Diego and Frisco Fairs Will Use Five During 1915

The Cadillac eight-cylinder has been made the official car of the Panama-California Exposition at San Diego. Three Cadillac cars, two with seven-passenger touring car bodies and one with a seven-passenger limousine body, have been ordered by E. A. Davidson, the chairman of the fair committee. These cars will be used by the members of the executive committee on official business. The three cars will be delivered through the Los Angeles house of the Don Leo organization.

Two Cadillac cars have also been purchased for the Panama-Pacific Exposition at San Francisco. Special ambulance bodies are to be mounted on the stock Cadillac chassis, and these cars will be stationed constantly at the fair grounds to care for any sick or injured persons.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. Two sizes, 25c and 50c at all stores.

## FIVE DEAD AND \$2,000,000 LOSS IN BIG FLOODS

Scores Injured, Towns Under Water, as Western River Overflows.

Columbus, Ohio, July 16.—Five dead, scores injured and more than two million dollars worth of property damaged, were the toll of floods which last night and today resulted from torrential rains throughout Central Ohio and hundreds of acres of land are under water and vast areas imperilled by weak levees and embankments.

Most of the swollen streams were stationary tonight and fears of further damage by favorable weather predictions were allayed. At Lima where three lives were lost, more than 200 homes are submerged and a large area flooded.

In Columbus both the Scioto and Olentangy rivers, after flooding a large section early in the day, were slowly rising tonight, but the weather bureau gave assurance that no serious damage would result unless the rainfall should be excessive.

A large portion of Kenton was submerged when the Scioto overflowed. Foraker, a village near Kenton, also suffered considerable damage. Several houses were washed away and it is feared that a number of persons lost their lives.

The Miami river rose five feet at Dayton, Mount Vernon and Lancaster each reported one death due to the storm. Included in the property damage are big crop losses.

# NEW GERMAN OFFENSE ALONG THE ENTIRE FRONT

## Making Effort to Gain Warsaw-- Italians Winning in Mountains-- Allies Gain Against Turks

on both banks of the Skwa the situation is unchanged. The enemy captured several trenches but did not repeat his attacks because of heavy losses suffered in the fighting Wednesday.

"Between the Orze and the Wkwa fronts, south of Przysmy, several enemy attacks were repulsed on Wednesday.

"On the Bug and on the Zlota Lipa there was no fighting of any significance.

"On the left bank of the Vistula there has been no change.

"Between the Vistula and the Bug on the 14th the enemy made numerous separate attacks, all of which were repulsed by our fire.

"On the evening of the 13th, Austrian troops took the offensive in the sector of Nicosvsko-Olona. The enemy attacked our bridge heads on the right bank of the river in the region of Kounolova and Galank. He crossed the Dniester in the region of Ivanjola, Kosenik and Sinkow. Our artillery successfully at many points during the crossing of the river and compelled him at some places to abandon the attempt to cross. The fighting continues.

### ITALIANS WIN IN MOUNTAINS

Rome, July 17.—The official statement issued last night at the headquarters of the Italian general staff was as follows:

"In the upper Cadore region our troops continued to bombard the bridges of the Platzwiese and Landro, which were partly demolished, while an enemy battery installed on the plateau of Raulkofel was partly dismantled.

Petrograd, July 16.—Reinforcements have been sent to the German troops in the Russian provinces of Courland and Kovno with the result that vigorous military operations have been resumed in that section. The Russians are offering a stubborn resistance and are holding strategic positions, according to an official statement issued yesterday at the headquarters of the general staff.

eral staff. The text of the communication follows:

"The enemy, having received reinforcements in the region of Bica and Shvchi, began on the 14th an advance from Hazonp on Goldingen and the sector Stranden-Popellary. Our cavalry and advance guards are holding the enemy at the passages of the Windau and Venta rivers and at other favorable positions.

"In the region across the Nemen Wednesday night there was artillery and rifle fire on a broad front, but the offensive undertaken by small infantry sections was easily repulsed.

"A partial enemy attack the same night in the direction of Lomza also was repulsed.

"On the right bank of the Pissa and encounters favorable to the Italians occurred on Mount Zelloukofel and upon the Buxgatal Crest (3450 feet high).

"A detachment of infantry succeeded in ascending the slopes of a ravine heretofore considered inaccessible and occupied by a surprise attack the summit of Palagore Pass (5945 feet high). On the night of Tuesday and Wednesday this detachment was counter-attacked, but the enemy was repulsed, attaining serious losses.

"There has been no change on the remainder of the front."

The Italians are strongly fortifying all positions captured from the Austrians. Trenches are being excavated and platforms constructed on which to mount heavy guns. Many places along the frontier have been transformed into entrenched camps, strongly garrisoned and with immense supplies of munitions.

"Terrible storms continue in the high mountain region. Violent winds, hail and even snow are delaying military operations, but the troops are engaged in fortifying dominant points."

### TAKE TWO TURKISH LINES

London, July 16.—Two strongly-held Turkish lines defending the Dardanelles have been captured by the Anglo-French forces on the Gallipoli

Peninsula, according to a statement given out this evening by the British Official Press Bureau. The announcement is as follows:

"General Ian Hamilton, commander of the allied forces at the Dardanelles, reports that on the 12th the forces under him made an attack at day-break with their right and center. After heavy and confused fighting, lasting all day, the troops engaged, including a French corps, succeeded in carrying two strongly-held and strongly fortified lines of Turkish trenches opposite to them, the ground covered by the advance varying in depth from 200 to 400 yards.

"The second phase of the operation was then undertaken, and the right section of the enemy's lines was attacked. As in the former phase, the first line of trenches was easily carried, a preliminary bombardment having been very successful. Following up this success, our troops took the second line of trenches, capturing some eighty prisoners, and by nightfall the line was consolidated since 400 yards in advance of our original position.

"In this part of the field in the course of the night of July 12-13, two counter-attacks were successfully repulsed. During the hours of darkness, however, it was found that the British right had pressed too far, and the Turks made a successful bomb attack and captured a section of the trenches.

"This position being vital to the safety of life a further attack was organized and a brigade of the Royal Naval Division, supported by French artillery, was sent forward, and with the support of seventy-five, retook the trenches. In the meantime the French had pushed their extreme right down to the mouth of the river Kereves Dere where it runs into the sea. This position was maintained without difficulty.

"During the night of the 13th-14th, as on the previous night, the enemy counter-attacked, but without success. In these successful operations the whole of the original objective of the attack was attained, except on one small portion of about 300 yards which still remains in the hands of the Turks. Four hundred and twenty-two prisoners were captured, of whom two hundred were taken by the French in the first attack."

The Paris official says of the same actions:

"In the Dardanelles on July 12-13 the expeditionary corps of the Orient and the right wing of the British troops attacked the Turkish positions and carried several lines of works. A first line was occupied along the whole of that front on the morning of July 12, and a second towards the close of the day through a magnificent charge of the Zouaves and the Foreign Legion. The following day fresh progress was made at several points and the lower valley of Kereves was occupied. We captured more than two hundred prisoners and our Allies captured 150. The losses of the enemy were extremely heavy. The warships cooperated efficaciously, shelling Achi Baba and the Asiatic coast."

SHIPPING HELD UP BY THICK FOG ALONG NEW ENGLAND COAST

Boston, July 16.—Shipping was held up this morning by a thick fog which enveloped the harbor and bay and extended from Gay Head to the Maine Coast. Local boats were held below, and the few vessels that reached the upper harbor groped through the mist for a distance of 15 miles.

Off the lights were several inbound steamers waiting for the fog to lift. Some of them were delayed there for hours before the weather cleared sufficiently for them to proceed in through the Narrows. The steamer Hunter Hill, Captain Calverth, from New York, with several hundred passengers, was delayed in arriving because of the fog. She stopped off the lights owing to the danger of attempting to make port through the mist.

The steamers Belfast, from Bargar, and the Ontario, from Baltimore, were also delayed outside, and passengers on board who were destined for other cities were unable to make their train connections.

Steamer City of Bangor, from Bath, and the Ransom B. Fuller, from Portland, also the City of Gloucester, from Gloucester, poked into port, arriving without mishap.

Another arrival was the Nevada, Captain Knight, from Pacific coast ports via New York.

Boston, July 7.—Walter A. Wetherbee, assistant adjutant general of the Massachusetts G. A. R., has arranged a special sight-seeing program for the local delegation of Civil War Veterans who attend the 49th National G. A. R. Encampment to be held in Washington, during the week of September 27 to October 3. Alfred H. Knowles, commander of the state department has issued orders to all posts concerning the coming encampment. The department has arranged for a special train out of the South Station over the Boston and Albany at 9 a. m., on September 26. This train will accommodate department officers, representatives to the national encampment, members of the Grand Army, Women's Relief Corps, Ladies of the G. A. R., daughters and Sons of Veterans, Sons of Veterans Auxiliary, and friends of various patriotic associations. Headquarters of the Massachusetts detail will be established at the Hotel Raleigh, Washington from September 27 to September 30. After the national program is concluded the local delegation will leave the capital, October 2 for Richmond, the former capital of the Confederacy. On Sunday, October 3 there will be a trip to Petersburg, returning to Richmond for dinner. Other trips will be made to Luray Caverns, Harpers Ferry, Gettysburg and Philadelphia.

According to a report of the Board of prison commissioners recently issued, 175,618 arrests of men, women and children was made in Massachusetts during the year 1914. This number creating a record for the state. This number signifies only the number of arrests for many of the persons taken into custody were arrested several times. The records as compiled, do not show the number of children arrested, partly because there is no dividing line between children and adults. Division by sex however, reveals that male arrests totalled 151,471 and female 12,444. A study of the net result shows that of all the arrests only 25,820, less than one in seven, reached the prisons, where their records could be studied. A total of 11,517 had served 92,418 terms there, to say nothing of the sentences served elsewhere. They averaged more than six sentences apiece, but that does not tell the whole story. In country prisons 12,572 of the 21,774 committed (nearly 58 per cent) had served previous sentences, 3383 of them from 6 to 16 terms; 1092 of them, sixteen to thirty terms; 272, from 31 to 50 terms and 46 of them from 51 to 100 terms. Numerically, drunkenness is the one which gives the police and courts most of their business—105,461 arrests. The next largest is the violation of the motor vehicle law, 5,365. Then follows tramps, vagrants, and violation of the milk laws.

"Cooperative education is one of the methods of industrial education that is most encouraged," says Superintendent Franklin B. Dyer of the Boston schools. Under that system of education approximately 300 girls in the high schools of the city are taken into the leading stores of Boston to learn actual conditions under which goods are sold. Their school of training in salesmanship has been under the direction of Mrs. Lucinda W. Prince.

## BOMB EXPLODES INJURING YOUTH

### CHAUFFEUR FOR HOTEL PROPRIETOR PICKED UP FIREWORKS PIECE AND LIGHTED IT

Philip Hemaire, 24 years old, of Newburyport, probably had his eyesight destroyed, a finger blown off and received multiple burns, when a fireworks bomb exploded prematurely after he had lighted it at Salisbury Beach, Friday morning.

He is now at the Anna Jacques Hospital in Newburyport, where the physicians attending him say that his chances of recovery are good, but they fear that he has been blinded.

There were no witnesses of the accident, but it is believed that while walking along the beach at 8 o'clock Hemaire, who is chauffeur for Dennis J. Kelleher, proprietor of the Hotel Dennis, Salisbury Beach, discovered a bomb, which had failed to explode when the weekly display of fireworks was given on the beach front Thursday.

He touched a match to the fuse and before he could retreat to a safe distance the explosive burst.

The sound of the explosion attracted the attention of people at the Centre, including Mr. Kelleher, and upon running to the beach front they found Hemaire lying on the sand in terrible pain.

The index finger of the right hand had been blown off at the first joint, a portion of his clothing had been torn away from his body and his thighs and arms were badly burned.

He was taken in Mr. Kelleher's automobile and rushed to the Anna Jacques Hospital at Newburyport.

HOW TO ADDRESS MAIL TO VESSELS PASSING CANAL

"California" is the title of a comedy sketch which will hold the boards at the Portsmouth Theatre next week. Eight people and a performing mule. A decided hit.

## EVELYN EMERY HAS REMARKABLE ESCAPE

Five-Year-Old Girl Falls From Hayloft, a Distance of Eighteen Feet, Without Breaking Any Bones.

While playing in a hayloft with her brother, five year old Evelyn Emery, daughter of Mr. and Mrs. Herbert G. Emery of Elliot fell from a scaffold to the barn floor beneath, a distance of eighteen feet, and escaped unhurt.

The little girl and her older brother Raymond were playing together on the hay. Evelyn caught sight of some barn swallows overhead, and in her eagerness to watch them she unconsciously stepped backward and off into space falling to the floor.

Mrs. Emery who was in the house at the time, heard the fall and ran out to the barn and picked the unconscious girl up. Dr. J. L. M. Willis of Elliot was immediately sent for and upon examination found fortunately that no bones were broken and that the child sustained very few bruises, which was indeed remarkable.

## CUT DOWN CREWS

Boston & Maine Railroad Reduced Section Forces.

A surprise hit the section crew of the Boston and Maine railroad on Friday when the department of maintenance ordered a reduction of men on the system. This decrease put the several crews practically back to the winter basis, something that has not been done in the summer season for many years. Generally the department increases the force in July and it appears that another curtailment is on and will hit other departments of the system.

## RAILROAD NOTES

Two traveling agents of the Boston & Maine passenger department were in this city and Kittery on transportation business on Friday.  
Martin Banks has accepted the position as station agent at Sawyer's on the Dover and Portsmouth branch of the Boston & Maine railroad. Mr. Banks assumed the duties of his new position on Monday morning of this week. For the past three years Mr. Banks has been telegraph operator and assistant station agent at the Newmarket station.  
The Concord and Manchester trains were crowded with people from these cities today bound for York Beach. Several of the local section men were laid off on Friday.

## LADIES TAKE A HAND.

Suggest Trainmen Wear Bachelors Buttons or Dark Pinks.

Recently the Boston and Maine officials tabooed the wearing of button hole bouquets by the passenger trainmen, along with several customs practiced by the men in the service. No doubt the order disappointed more than one man who has worn the floral ornament on his lapel for years, but the order stood. Now comes the ladies with a word or two on the subject in favor of the conductors and brakemen. The dear women in communications to the general superintendent, J. D. Tyler, are not fully in harmony with the officials in the order to eliminate the rosegay entirely. They do not approve of the blue coated employees decorating with big sunflowers, lilies, peonies or autumn leaves, but they like a small, neat bouquet. One lady suggests that Superintendent Tyler make it a uniform thing and that all trainmen who care to ornament their glad rags wear a bachelor's button. Another comes forward and says she likes dark red pinks and that it would be nice to see them all decorated with that flower. We do not know whether or not the genial superintendent has favored the ladies with a reply to their letters, but we would

## OPPONENTS CANNOT BE SUITED

The results of equal suffrage are no longer a purely academic question. Women are already voting in ten States of the Union, as well as in a number of foreign countries. In some they have had the ballot for many years. As a matter of fact and experience, we do not find that equal suffrage has anywhere led to the overthrow of the home or brought in a reign of immorality. Opponents used to prophesy that it would subvert all the foundations. Now they complain, on the ground that it has made so little difference! Such differences as it has made have been distinctly in the direction of raising moral standards and throwing added safeguards about the home.
